

## Criterion 2.6.1

### **Program outcomes ; Program specific outcomes and Course outcomes for all programs offered by the institution**

#### **A. Programme Outcomes:**

Kamala Nehru College offers undergraduate programs in Honours and Programme courses in Commerce and Humanities. The different programmes offered are

B.Com (Hons.) and B.Com (Prog).

B.Sc (Hons.) Mathematics

B.A.(Honours) programmes in English, Economics ,Geography, Hindi, History, Journalism, Philosophy, Political Science, Psychology, Sanskrit, Sociology.

B.A.(Prog.)

M.A. Programmes in English ,Hindi, History, Political Science, Philosophy and Sanskrit

The present curriculum goes with Learning Outcome-based Curriculum Framework (LOCF) for all its Under Graduate programmes. The Program Outcomes of courses have aims to be achieved. Some of the Programme Outcomes of courses collectively are as follow:

- The approach is envisioned to provide a focused, outcome-based syllabus at the undergraduate level with an agenda to structure the teaching-learning experiences in a more student-centric manner.
- These wide range of undergraduate courses are designed to satisfy individual objectives and interests.
- The LOCF approach has been adopted to strengthen students' experiences as they engage themselves in the programme of their choice. The Under-Graduate Programmes will prepare the students for both, academics as well as employment.
- Each programme vividly elaborates its nature and promises the outcomes that are to be accomplished by studying the courses. The programmes also state the attributes that it offers to inculcate at the graduation level.
- The graduate attributes encompass values related to well-being, emotional stability, critical thinking, social justice and also skills for employability. Our students became eligible for all competitive exams like SSC, Indian Administrators, Insurance sector, Data Analyst, Tourism, Environment Management, Bank PO's, Media, MNC, NGO, and to prepare them for start-ups. In short, each programme prepares students for sustainability and life-long learning.
- Through these Programmes students developed soft skills, their vocabulary improves and they also realised the importance and beauty of languages. The ethical theories

influence and motivate the students to be moral and responsible to the society and environment.

- The curriculum for each graduation programme is prepared keeping in mind the needs, expectations and aspirations of students as well as the modernizing trends and methodological perspectives of a subject.
- The programme learning outcomes specify the knowledge, understanding, skills, attitudes, values that a student completing this degree is expected to inculcate and know.
- As the LOCF is student centric and the ultimate aim of it lies in enhancing the quality of higher education, Kamala Nehru College encourage the students to gain the best skills and knowledge during their student journey. Learning outcomes are determined in sync with what students are expected to understand at the end of their study program.
- Besides, employability Kamala Nehru College also focussed on the importance of nature and environment. Through the LOCF programme college has successfully introduced students to learn through practical experiences about the nature, natural resources and their relevance.
- The courses will help students in making an informed decision regarding the goals that they wish to pursue in further education and life, at large.
- Kamala Nehru feels that the biggest success of our programmes is reflected by the fact that a greater number of students are taking admissions for masters or other higher studies every year. This craving for higher studies among the students is also helping the society enormously, since education facilitates them to shape their social identity, framing their understanding of themselves and their relationship with the other people.

#### B. Programme Specific Outcomes

Sr. no	Programme	Programme Specific Outcomes
1.	B.Com (Hons.)	1) The course provides an in depth understanding of Accounting Issues Related to Business 2) The course provides an in depth understanding of General Business Functions Impacting Organization 3) The projects assigned to students helps in improving their Interpersonal and Communication Skills 4) The course gives an understanding of Ethical, Social Sustainable Business Issues 5) Helps in developing Entrepreneurship Acumen 6) Students will learn relevant financial accounting skills, thereby applying both quantitative and qualitative knowledge to their future careers.

### C. COURSE OUTCOMES

Course learning outcomes are specific to a course of study within a given programme of study. It describe what learners should know, be able to do and value as a result of integrating knowledge, skills and attitudes learned throughout the course. According to the preferences of individual students the elective courses offered by one student may be different from the elective courses offered by another student of the same programme. The achievement by students of course level learning outcomes leads to the attainment of the programme learning outcomes.

The link to course learning outcomes of our programmes is given below.
